FULLSTACK DEVELOPER

Experienced Full Stack Developer with a passion for crafting innovative web solutions. Proficient in both front-end and back-end technologies, I specialize in designing and implementing scalable applications that deliver exceptional user experiences. My expertise includes HTML, CSS, JavaScript, React, Node.js, Java SpringBoot, OutSystem and databases such as MongoDB, PostgreSQL, MySQL. I thrive in collaborative environments and excel at translating business requirements into technical solutions. Committed to staying updated on industry trends and continuously enhancing my skills to deliver cutting-edge solutions.

KEY COMPETENCIES

Backend Frameworks	Development	Troubleshooting and Debugging
Frontend Frameworks	Quality Assurance	Strategic Alignment
Database Management	Stakeholder Engagement	Business Process Optimization

PROFESSIONAL EXPERIENCE

PT Bumi AmartaTeknologi Mandiri

Jan 2024 - Present

FullStack Developer (BCA Digital)

As an experienced Fullstack Developer, I specialize in backend development using Java Spring Boot and OutSystems. With expertise in designing, implementing, and maintaining secure and scalable systems, I've successfully developed a lending application portal for both B2B and B2C clients. Additionally, I created an internal and external data management dashboard. Leveraging PostgreSQL for the database and adhering to a structured repository schema, I ensure high-quality, reliable, and secure solutions.

Accomplishments:

- Designed and implemented an internal and external data management dashboard, improving data visibility and business decision-making processes.
- Successfully developed a lending application portal for both B2B and B2C clients, which is projected to significantly increase customer engagement and satisfaction upon launch.
- Maintained secure systems, effectively preventing security breaches and ensuring the protection of sensitive information.
- Resolved critical backend and frontend issues promptly, minimizing downtime and ensuring uninterrupted service.

PT Triyakom

Feb 2022 - Dec 2023

Backend Developer (Payment Gateway)

Experienced Backend Developer with a specialized focus on payment gateway integration, offering 2 Years of hands-on expertise in designing, implementing, and maintaining secure and scalable backend systems. Proven track record of successfully integrating payment solutions to enhance the functionality of XimpayStore platforms and ensure seamless financial transactions. Adept at collaborating with cross-functional teams, I bring a deep understanding of backend technologies and a commitment to delivering high-quality, reliable, and secure payment solutions.

Accomplishments:

- Development of backend services for Ximpay, resulting in a 30% increase in application responsiveness.
- Collaborate closely with frontend developers to design APIs that seamlessly integrate frontend and backend functionalities.
- Implement database optimizations that significantly reduced query response times and improved overall system efficiency.
- Resolved critical backend issues promptly, minimizing downtime and ensuring uninterrupted service.
- Played a key role in migrating legacy systems to a modern microservices architecture, enhancing scalability and maintainability.
- Led a cross-functional team in integrating third-party APIs, expanding application features and enhancing user experiences.

Freelance

Jun 2020- Present

Web Developer

Dedicated and results-oriented Freelance Web Developer with a passion for creating engaging and functional websites.

Accomplishments:

- Proficient in developing responsive and user-friendly websites that captivate audiences across desktop, tablet, and mobile devices.
- Skilled in front-end technologies including HTML5, CSS3, JavaScript, JavaSpring, NodeJS and more
- Adept at translating design mockups into pixel-perfect web interfaces that maintain visual integrity and functionality.
- Strong grasp of version control systems like Git for streamlined development and collaboration.

Teacher / Coach

April 2021 - Feb 2022

PT Binary Akademi Indonesia

Passionate and versatile Teacher/Coach Web Developer with a unique skill set combining technical expertise with the ability to effectively teach and mentor others. Leveraging 1 years of experience, I specialize in not only developing cutting-edge web solutions but also in empowering students or team members with the knowledge and skills to excel in the dynamic field of web development. Dedicated to fostering a collaborative and engaging learning environment, I bring a strong commitment to educational excellence and a track record of successful project-based learning initiatives.

Accomplishments:

- Provide personalized one-on-one and group mentorship sessions to individuals of all skill levels.
- Offer guidance on foundational programming concepts, web development best practices, and project execution.
- Create a supportive and collaborative learning environment that encourages curiosity and exploration.
- Guide individuals in developing strong algorithmic problem-solving skills to tackle complex coding challenges.
- Offer insights into building interactive web applications using HTML, CSS, and JavaScript.

EDUCATION

Telkom University

Aug 2022 - Sept 2024

Bachelor of Engineering - Telecommunication Engineering

Published Journal about Cybersecurity Attempt on Payment Gateway (JICT, Sept 2024)
