SUMMARY

I am enthusiastic about leveraging my backend development skills in a new and challenging environment, contributing to the success of innovative projects and driving technological advancements. Excited to explore opportunities that allow me to further enhance my expertise and make meaningful contributions to the world of backend development.

EDUCATION

Telkom University

Bachelor of Engineering - BE
2022-Present

Akademi Teknik Telekomunikasi Sandhy Putra

Ahli Madya Teknik Telekomunikasi (A.Md..T.)
2017-2020
scholarship grantee : PPA Akademi Telkom Jakarta Periode 2018 - 2019

SKILLS

- Full-Stack Development
- Back-End Development
- Database Administration
- Web Services API
- Java Database Connectivity (JDBC)
- Detail-oriented and able to handle multiple tasks simultaneously

CERTIFICATIONS

- DP Database Programming with SQL Learner - English
- Oracle Academy : DD Database Design Learner - English
- CCNA Routing and Switching: Connecting Networks
- CCNA Routing and Switching: Routing and Switching Essentials
- CCNA Routing and Switching: Scaling Networks
- FGA - Database Design & Programming with SQL
- Back End Developer Digital Talent Incubator Telkom Indonesia

PROFESSIONAL EXPERIENCE

Backend Developer (Payment Gateway)

PT Triyakom | 2022 - Present

1.development of backend services for Ximpay, resulting in a 30% increase in application responsiveness.

2.Collaborate closely with frontend developers to design APIs that seamlessly integrate frontend and backend functionalities.

3.Implement database optimizations that significantly reduced query response times and improved overall system efficiency.

4.Resolved critical backend issues promptly, minimizing downtime and ensuring uninterrupted service.

5.Played a key role in migrating legacy systems to a modern microservices architecture, enhancing scalability and maintainability.

6.Led a cross-functional team in integrating third-party APIs, expanding application features and enhancing user experiences.

Web Developer

Freelance | 2020 - Present

1. Proficient in developing responsive and user-friendly websites that captivate audiences across desktop, tablet, and mobile devices.

2. Skilled in front-end technologies including HTML5, CSS3, JavaScript, JavaSpring, NodeJS and more

3. Adept at translating design mockups into pixel-perfect web interfaces that maintain visual integrity and functionality.

4. Adept at translating design mockups into pixel-perfect web interfaces that maintain visual integrity and functionality.

5. Strong grasp of version control systems like Git for streamlined development and collaboration.
